

FOREIGN MARKET HAD AN INFLUENCE

Activity in Stocks Declined After
Close of the London
Market.

NEW YORK. February 11.—The dull strength in to-day's market was ascribed in large part to foreign influences, and was an echo of the fall undergone by the bear element in the speculation on the London stock market. Most of the business was done during the early part of the session, the activity declining after the London business hours had passed. Some part of the buying here was supposed to be prompted by the action of the California Legislature in reconsidering and堅決 the bill to segregate Japanese children in the public schools, although the discussion of our Japanese relations had lost its influence as a stock market influence for several days past.

Union Pacific moved upwards with its usual strong systematic effect in the whole list. The admission of directors representing the new control of the Chesapeake and Ohio road was made the occasion for another demonstration of strength in that stock. The whole of the Southern group of railroad stocks was marked up briskly without special explanation. The stock market sank back into lethargy in the late dealings and the day's changes proved trivial in most cases.

Bonds were firm. Total sales, par value \$7,850,000. United States 2% have declined 3-4, the 3 is registered 3-8 and the coupon 1-2 per cent. on call for the week. Total sales stocks to-day, 325,500 shares.
